

Notes: I am not the original tabber. This is an update to version 1 to include the bridge and correct song structure.

[Intro]  
Em Bm C G [x2]

[Verse 1]  
Em Bm  
She's the one, she's the only one  
C G  
She's got ripped back light, Gonna make me come  
Em Bm  
I say, when I smile, I'm a really smile  
C G  
I got dreams so wide, like a country mile  
Em Bm  
I said now, I'll take it  
C G  
It's better for you  
Em Bm  
Somehow, we'll make it  
C G  
'cause that's what we do

[Verse 2]  
Pick a star in the open sky  
I see you see me, and that is why I  
Hop along to the cowboy beat  
When I feel your fire, jump up to meet  
I said now, I'll take it  
It's better for you  
Somehow, we'll make it  
'cause that's what we do

[Chorus]  
G D  
Something out there  
Em C  
Where love is your only friend and  
G D  
We are the ones  
Em C  
That will make you feel better and  
G D  
Someone to spare  
Em C  
When love is the only end and  
G D  
We are the ones  
Em C  
That will make you feel better

[Verse 3]  
In a world that has run amok  
I've got to set my sights just to get struck  
I walk away from the rank and file  
With a punched out mouth and a pack of style  
I say, she's the one she's the only one  
Make me search myself until I'm done, and  
Tell me now in a telegram  
Do the sea of stars make a diagram, and

[Chorus]

[Bridge]  
D Em C Am C  
Oh... Yeah.. Yeah... Yeah... Yeah

[Verse 4]  
So alive I arrive on dust  
You can search my mind for the red on rust, I said  
Take me there and she really cares  
Lights up for me gonna hear my prayers  
I said now, I'll take it  
It's better for you  
Somehow, we'll make it  
'cause that's what we do

[Chorus]

[Outro]  
G D Em C  
We are the ones, that will make you feel better (x4)
