

Show me a sign that I love you
Blow me your mind cause you always do
Remind me to tell you that I've come to
Believe in the beauty, the power of you

Woman dissolved into the sea
The body of water is calling me
The god of my daughter is always free
There's nothing to solve when you're solving me

Ooh ooh ooh, I'm in your company
Ooh ooh ooh, body that's calling me
Ooh ooh ooh, I'm in your company

Throw me a line I could use one
A special design because I'm your son
Two thousand below where I feel my love
The body of water where I come from

Ooh ooh ooh, I'm in your company
Ooh ooh ooh, body that's calling me
Ooh ooh ooh, I'm in your company

I'm dreaming, got a reason to steal
Fire from the other side out there
Formations flow like streams
I'm made with a life to spare
Get the jizz, Mr. Sism got a rhythm
Technology of a prayer
Scientist to the prism of faith
And hope so I am there

Baby I'm home, you can come here
The science of love is becoming clear
Invisible love with the color still
A meet to a place in the atmosphere
And I may believe

Ooh ooh ooh, I'm in your company
Ooh ooh ooh, body that's calling me
Ooh ooh ooh, I'm in your company
