Hi everybody, this is Clement, and this is my first tab posted on lline.
I chose a great song (the best ?) of the new album of RHCP released in 2016.
The main riff seems easy, but do not let the two strings ring at the same time.
[INTRO]
                                              once in a while, play ----- instead of the last ---7- --3b-
E -15-\-- -0------
[VERSE 1] (play intro through the verse)
Find me in the suburbs and the shadow of decay
Rolling rings of rubber and the band begins to play
Am I on the right side of the left side of your brain
Can you see the rising of old yesterday's remains
                                    Εm
Funkadelic said it best I think you know the rest
            G
                               Em
Time don't stand a chance against this motor madness
