13Kelly13: Damn, I was going to go ahead and tab out all the songs on their new album on bass but it seems like you got to it irst, and did a good job at that.
BIGSTEVE808: If you watch the live videos, you can see Flea playing the intro something like this: [tab]Intro <nobr>G</nobr>
4useless: BIGSTEVE808 - it's only for live performances but studio is just like peewee_123 did.
Only thing I dislike is second part of solo:
It goes like this:
<nobr>/nobr> <nobr>/nobr> <nobr>/nobr> <nobr>/nobr> <nobr>/nobr> and so on till chorus.</nobr></nobr></nobr></nobr></nobr>

I'm 100% sure 'cos I heard separated bass line.
